CERTIFICATE IN TRAINING OF TRAINERS IN E-LEARNING National center for public administration & local government

11/07/2014 – 19/04/2019 Thessaloniki, Greece

PHD IN PARASITOLOGY AND PARASITIC DISEASES Aristotle University of Thessaloniki

The main subject of my thesis was the investigation of the possibility that other animals apart from dogs might be involved in the epidemiology of the Protozoan parasite Leishmania and possibly play the role of an alternative reservoir host for the parasite. This knowledge that could be an important step for better understanding leishmaniosis epidemiology, a Public Health problem in Greece, a country that is considered endemic for human and canine leishmaniosis.

As a Phd candidate, during my working time in the Laboratory of Parasitology and Parasitic Diseases, Faculty of Veterinary Medicine, Aristotle University of Thessaloniki, I have: - Contributed in the laboratory diagnostic activities of the laboratory (microscopy, serology and molecular biology) - Contributed in the teaching activities of the parasitology courses - Achieved an adequate number of scientific publications in peer-reviewed scientific journals, and the main skills that I have covered were: vector-borne diseases, Public Health, veterinary parasitology and veterinary epidemiology

Field of study Veterinary | **Final grade** A |

Thesis Investigation of the role of other species besides canine in preservation of Protozoan Leishmania

03/05/2014 – 01/10/2014

CERTIFICATE OF ATTENDANCE IN COURSES IN BIOMEDICAL STUDIES, SPECIALISED IN BIODIAGNOSTICS Aristotle University of Thessaloniki & Democritus University of Thrace & University of Thessaly
